You may find that even your rock-bottom expenses aren't met and that you have to work more hours, pay your bills late, borrow money or do without. [Related Editorial »](#)

 You haven't eaten in a little while, and your body needs fuel. It's time for breakfast, lunch, or dinner.

If there's a specific food you want, it's okay to eat it! You don't have to eat perfectly healthy all the time-- no one does! Just also use your brain a little, and notice the quantity you're eating, and how healthy it is for you. You're probably just fine at trusting your gut and knowing what your body needs.
